

The image is a detailed architectural floor plan of a building, likely a warehouse or industrial facility, featuring a grid system. The grid is defined by horizontal and vertical lines, with numerical labels (180, 190, 200, 210, 220) indicating dimensions or stationing along the top and bottom edges. The plan includes several rooms and corridors, with labels in Polish indicating the type of room and its dimensions. Key labels include "dzwigan kratowy wysokości 45 cm" (crane height 45 cm), "dzwigan kratowy wysokości 100 cm" (crane height 100 cm), "krawężnik szlifu" (grinding curb), and "Analogiczny detal" (Analogical detail). The plan also shows a central area labeled "A" and a section labeled "B".
